A GOOD ATTENDANCE.

First Sermon in Series of Meetings at First Baptist Church is Heard by Good Audience.

Rev. Miles Smith of the Tarkio Baptist church was received by a good audience Monday night at the First Baptist church of this city, when he preached the first of the series he will present in the protracted effort.

His sermon was based on Ephesians 2:1-10, emphasizing the gift of God's grace to all who believe in him. The only limit to God's loving favor is what we ourselves place upon it. If we seek, we shall find; if we knock, He will open to us and give abundantly, far more than we are able to think to ask for ourselves.

Rev. Smith is a pleasant speaker. He believes in a religion that brings happiness and peace and blesses the lives of all who come in contact with the one who professes the name of Jesus. He said that he expected to have a good meeting in Maryville, because he had asked for God's blessing on his effort here and he knew the answer would come.

His subject tonight will be "The "Field of the Heart."

All are cordially invited to come to these meetings.

W. G. Hine of the Board of Regents Talked During the Assembly Monday Morning.

Township Assessor Ed. F. Hamlin has just completed his books and turned the tax lists for Polk township over to the collector. ST. JOE DON'T LIKE IT

NEW WABASH-GREAT WESTERN TRAIN FAVORS OMAHA.

NO BENEFIT TO ST. JOSEPH

Shoppers Bound for St. Joseph Would Have to Board the Train After Midnight.

That St. Joseph is going to have a kick coming on the proposed new Wabash-Great Western train is evident from an article in Tuesday's Gazette. St. Joseph seems to see in the proposition a scheme to rob her of a lot of trade her merchants think belongs to them and turn it to Omaha. It is all in the time schedule. Both cities are in favor of the train and the service but each city will evidently want the running time so arranged as to favor it in a commercial way. The Gazette article is as follows:

The rumored action of the Chicago Great Western and the Wabash in inaugurating joint through service between Omaha and St. Joseph and Kansas City, by way of Conception Junction, has come to the attention of the Commerce club, through the efforts of the Commercial club of Shenandoah, Ia. From communications received from Shenandoah it would seem that the towns along the Wabash between Omaha and Maryville are trying to get a train service that will enable them to do their shopping in Omaha and remain over for the theaters, leaving Omaha about 11 o'clock p. m. Such a schedule would put a through train into St. Joseph about 3:56 o'clock a. m., but little ahead of the present running schedule of the two fastest trains on the Wabash and the Great Western between Omaha and Conception Junction. The Wabash time between these two points is two hours and forty-two minutes. The time from Conception Junction and St. Joseph on the Great Western is one hour and fourteen minutes. Such a schedule would be of no practical benefit to St Joseph shoppers, as they would have to board the train after midnight and up to 2 o'clock a. m., in order to avail themselves of the train that Shenandoah and other Wabash towns are attempting to secure.

The return schedule, or the train from St. Joseph to Omaha, is not suggested by Shenandoah and the Iowa-Wabash towns. The only benefit that could accrue to St. Joseph from such a schedule as Shenandoah and its neighboring towns suggest is in through train service from Omaha to St. Joseph and vice versa.

That the joint traffic arrangement and through train over the Great Western-Wabash tracks is coming soon seems almost certain. C. R. Berry, assistant to the vice president of the Great Western, said yesterday that the deal is under consideration. Of course Shenandoah and the small Iowa towns that hope to be affected by the proposed new train service were not instrumental in initiating the move, and they are naturally trying to get the best deal for themselves and Omaha out of the projected change. The Commerce club will not back Shenandoah and the other towns in demanding or devising such a schedule as Shenandoah hopes to secure, and which means everything for Omaha in a shopping service, and nothing for St. Joseph but a through service.

The Great Western-Wabash line from Kansas City to St. Joseph and Omaha is only sixteen miles longer than the Burlington route from Kansas City to St. Joseph and Omaha.

If the Commerce club gets back of the deal it will be to secure a schedule that will give St. Joseph the benefit of a passenger schedule that would make Shenandoah, Blanchard, Coin, Summit, Imogene and other Iowa towns on the Wabash St. Joseph shopping towns, rather than more easily reached from Omaha than now.

A general discussion followed, led by the president, Mrs. Roy Collins. A delightful musical program was given by Miss Carrie Margaret Baker in two piano numbers, and Miss Edith Wilson with two violin solos, piano accompaniment by Miss Lucile Airy. This was the first meeting of the year, and if it is a criterion of the coming year's work there is indeed much in store for this society. Mrs. Dean, Mrs. Snoderly and Miss Lucille Aairy were the hostesses during the social hour. One new member was added, Mrs. Emmett Scott.

Music Department Meeting.

The first meeting of the music department of the Twentieth Century club was held Monday afternoon at the home of Mrs. Charles S. Jackson. The subject for consideration was "Indian Lyrics." Every number was well presented, and consisted of the following: "Legends of Passamaquoddy and Other Indian Tribes," Mrs. E. G. Orear; "Indian Love Song," by De Koven, Mrs. Ralph W. Eversole; "March of Indian Phantoms" by Kroeger, Mrs. Charles Jackson, "Importance of the Indian Dance in Religious Ceremonies," Mrs. Berney Harris; "Indian Lyrics," by Finden, Mrs. Ferdinand Townsend; "Indian Legends Compared With Grecian Mythology as Given by Wagnerian Operas," Mrs. Leslie Dean; "Selections from Omaha Indian Love Songs," by Cadman, Mrs. D. J. Thomas. The club quartet, composed of Miss Jennie Garrett, Miss Helen Leffler, Mrs. George Eaton and Mrs. J. E Bailey, was to have given an indian lullaby, but could not respond because of the illness of Miss Leffler. After adjournment Mrs. Jackson invited the club to remain for a social hour, during which she served dainty refreshments. Mrs. George L. Wilfley, Miss Lenore Schumacher and Miss Della Grems were the guests of the club.

Their Wedding Anniversary.

Last Sunday was a time of general merriment all day long at the beautiful home of Mr. and Mrs. J. A. Sparks of near Parnell. They had forgotten that the day was their twentieth wedding anniversary until Mrs. Sparks was preparing dinner, when she noticed a long procession of buggies and automobiles coming toward their home along the Saints Highway. She asked her husband if he knew what was going on that would bring out so many at once along that way. They soon recognized old friends and relatives in the procession, and when it stopped at their home they remembered it was their twentieth wedding anniversary, and bid the one hundred and two guests a royal welcome. A sumptuous dinner was spread at once, the guests having brought a veritable feast with them, and after dinner the young people of the company gave a

WAITING ON STREET

DETAILS OF CITY'S PROPOSITION SUBMITTED TO PRESIDENT.

SETTLEMENT PROBABLE

It is Thought Water Company Will Recognize Fact That City Has Made Its Final Offer.

Up to noon today the water question had apparently not been settled, although a settlement is supposed to be near. The formal proposition made by the city was sent down to the company's attorneys at Kansas City Saturday night and some definite reply was expected this morning, but a slight misunderstanding seems to have arisen over the Robinson and Bellows extensions.

In their figuring heretofore the company claims to have figured exclusive of these extensions. They were put in at private expense and the company has been taking them over by degrees, paying for them from the water receipts. The city council, in its proposition, assumed that they were to get everything but the coal, and the members were in no mood to change their offer.

Manager Roseberry asked that in making up the formal proposition it be expressly stated that it covered these extensions, so that there would be no room for a wrangle hereafter, and this was done. He received a letter this morning from the company's attorneys at Kansas City, Harkless, Cryster & Histed, and they suggest that, owing to this property being included, they have forwarded the details of the offer to Mr. Street, and that the final answer may be delayed somewhat.

It is felt, however, that as the matter is final so far as the city is concerned, it is only a matter of hours before an acceptance is received.

Noted Republican to Support Democratic Ticket.

New York, Oct. —Dr. J. N. Hurty, health officer in Indiana and one of Harvey W. Wiley's most ardent supporters in the public health campaign, has come out for Governor Woodrow Wilson, according to information received at the Wilson national Progressive Republican league. Dr. Hurty is a life-long Republican. He will probably take the stump for Governor Wilson in the present campaign, basing his appeal to the voters on the ground that Governor Wilson has shown himself to be in hearty sympathy with Dr. Wiley's pure food campaign.

Another addition to Governor Wilson's ranks is General John B. Peck of Saunderstown, R. I., father of Miss Annie Peck, the explorer and mountain climber. In a letter to Rudolph Spreckles, president of the Wilson National Progressive Republican League, General Peck said: "Please place my name upon the membership roll of your league. I was with the Republican Wide Awakes in 1860 and have supported and voted for every Republican candidate for the presidency since that date." General Peck served as acting third assistant engineer, U. S. A., for two years during the war.

There was no tariff on that wet blanket which Hadley threw over the Republican campaign opening.

Governor Hadley is against the Democratic state ticket, but he has never been able to give a very good reason why.

The Underwood cotton bill so reduced the cotton schedule as to save the consumer of cotton goods $88,000,000.00. But Taft vetoed the bill, and John C. McKinley endorses Taft.

Don't fail to come to Maryville next Saturday and hear the big men discuss the true Democratic faith and analyze present economic conditions. Come and hear Judge Wallace discuss the single tax amendment. You are all interested in that.

Dr. Harvey W. Wiley, who has done more for humanity in his crusade for pure food than any one man in a generation, is an enthusiastic supporter of Governor Woodrow Wilson, because pure food and pure politics work well together.

Democrats should wake up along with the balance. There have been almost as many elections lost through over-confidence as from lack of strength. The only thing that could possibly lose county, state or nation to the Democrats this year would be over-confidence and carelessness.

One of Missouri's ablest farmers and land owners says this of the seventh amendment: "Napoleon with his mighty army, Creosus with all his money, Monte Cristo with all his uncounted gold—none of these had the unlimited power such as these three tax commissioners under single tax would have."

Have you given anything yet toward the campaign for the rule of the people? The developments in the investigation of campaign contributions now going on at Washington show clearly that "big business" has owned the government because it has been financing the campaigns of Republican candidates. The people now have a chance to come into their own. Do you want it bad enough to help the campaign in your own interest? If so send The Democrat-Forum a dollar or more and don't delay for the time is getting short, and in four weeks a new president will be elected.

FATAL.

It is also clear that Governor Hadley gave too much attention to the task of "weighing" the situation, says the St. Louis Times. During his long, amazing silence, relative to his position toward the presidential candidate of the Republican party and the candidate of the Bull Moosers, it is found that he was "weighing" the case.

If the governor had dared to do what he thought the right thing to do, instead of taking the larger part of the summer to determine which would be the more popular thing to do, he would have emerged from the situation in much better order.

The right kind of people respect honest convictions. An honest stand would have won friends for the governor from among the ranks of Democrats and Republicans alike. But the trimmer who frankly employs nearly three months in which to do his trimming is loved by nobody.

It is the politician who can trim spontaneously, so to speak, who holds his own among other politicians. A man who spars for position three months wins neither confidence nor respect.—Joplin Globe.

Prevention of Typhoid Fever.

The source of typhoid germs is the typhoid patient. These germs are carried from the patient to the outside world in excreta, in the bedding, and by attendants. If the excreta, bedding, clothing, towels and other clothes are disinfected before leaving the patient's room, the chances for spreading typhoid fever are greatly reduced. To disinfect the excreta, make the entire mass of excreta a 2 per cent solution of carbolic acid by adding strong crude carbolic acid. The clothing, bedding and other materials should be placed in a 2 per cent solution of carbolic acid. All material to be disinfected in carbolic acid should remain in the solution from two to four hours. After which they may be handled as desired. Attendants and visitors should disinfect their hands before leaving the patient's room.

The nourishment for the patient should be kept separate from the family supply. A separate refrigerator should be used, when possible.

KANSAS RAILROAD VISION VANISHED

Winnipeg, Salina & Gulf Promoter Arrested for Fraud.

TOOK $500,000 FROM FARMERS

Postal Officials Learned of Vast Amounts Invested by Bankers and Merchants Also in Three States.

Kansas City, Kan., Oct. 8.—With the dramatic arrest in the federal court here of H. Leone Miller, president of the Winnipeg, Salina & Gulf railway the postoffice officials believe they have brought to a close a Western case of Get-Rich-Quick Wallingford, who operated—apparently immune to the much heralded "blue sky" law of Kansas.

The railroad that Miller has been promoting for the past two years, it is charged, exists only on paper and is a mere scheme to enrich its president and promoter, that its only property was the handsomely furnished "general offices" in Salina, and its financial backers and board of directors were mythical.

Covered Several States.

Postal officials charge that the bankers, merchants and well to do farmers in Kansas, Nebraska and Oklahoma who invested approximately $500,000 in the project would never have received the stock that they were promised and that this money went into the pockets of Mr. Miller.

Miller might have continued to operate indefinitely if he had not visited the little city of Turon, Kan. Miller went to Turon and agreed to make it a division point if $2,500 was raised by the people there.

This was done. Miller promised a 10-stall roundhouse, ice plant and like commercial institutions if the citizens would raise additional funds. This they did not agree to do. They demanded some tangible work by the railroad. That was the cause of Mr. Miller's downfall. It brought a showdown.

Met His Waterloo.

Miller to meet this engaged the Brindley Construction company of New York to do the necessary work of surveying, telling them as he had told the Commercial club of Turon, Salina and a dozen other towns, that he had deposited $29,997,000 in banks in Paris, France. When the survey was made from Turon to Salina the Brindley company was to receive $69,000. The survey was made, but the construction company could not get the money due it. In July the Brindley company applied to the United States courts for the appointment of a receiver for the Winnipeg, Salina & Gulf railroad.

J. A. Kimball of Salina was appointed receiver. He soon reported that aside from the office fixtures he could find no property. The company was chartered in Kansas, but J. N. Dolley, bank examiner, had refused to permit it to sell stock there after the passage of the "blue sky" law. The receiver has just caused Miller to be cited before Judge John C. Pollock for contempt.

BOWLS BAD, LIVER TORPID? CASCARETS

If Constipated, Bilious, Headachy, Stomach Sour, Get a 10-Cent Box of Cascarets—Take One Tonight.

You men and women who can't get to feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular and head clear for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

Mrs. Howard Strong and her sister, Miss Lora Livasy, went to Pickering Tuesday to spend a few days with their mother, Mrs. Mary Livasy.

EUROPEAN POWERS WILL INTERVENE

Europe Accepts French Proposals and All Are Now in Accord.

TROOPS SPOILING FOR A FIGHT

Proposed Ultimatum to Turkey Has Been Modified—Some Fear Excitement Has Advanced Too Far to Avoid Conflict.

Paris, Oct. 8.—The European powers have decided to intervene at the Balkan capitals and Constantinople as soon as it is possible to make arrangements to that effect. Great Britain has signified its acceptance of the French proposals so that all the powers now are in accord.

Premier Poincare immediately communicated Great Britain's acceptance to Sergius Sazonoff, the Russian foreign minister, who then telegraphed to the Russian diplomats accredited to the Balkan states telling them to join their Austrian colleagues in a mutual presentation to the Balkan governments of the note agreed upon. This is to be done at the earliest possible moment.

Situation Tense.

The tension in the situation remains and it is realized that the crisis will persist as long as a million troops spoiling for a fight, continue under arms.

The combined ultimatum demanding reforms, which the Balkan states were to have dispatched to Turkey, has now under the guidance of diplomacy taken the form of "a note which will be sent simultaneously to all the great powers and Turkey." The Ottoman government which protested that it would not listen to proposals touching on its internal affairs, from any source, has itself opened the door to receive the demands the powers intend to make by voluntarily granting the Christian vilayets a wholesale measure of reforms.

Official France has noted these signs of concession as hopeful. The government thinks that with some extension and an adequate guarantee that the powers themselves will take in hand their accomplishments, these reforms ought to satisfy even Bulgaria.

Plan to Sow Discord.

Constantinople, Oct. 8.—The Balkan situation has been considerably changed by Turkey's eleventh hour surprise announcement of her willingness to grant a great measure of self-government to Rumelia and Macedonia.

It is argued here that in introducing in those provinces reforms elaborated by representatives of Great Britain, France, Germany, Austria, Italy and Russia, Turkey not only desires to give the powers an argument for bringing pressure to bear in the Balkan capitals but probably has in view the circumstances that the decision is calculated to show discord among the members of the Balkan alliance.

In many quarters here the fear is expressed that the excitement created by the war preparations of both sides have advanced too far for a conflict to be avoided on the basis of any reform short of complete Macedonian autonomy.

GOT ONE JUROR ON BECKER CASE

Examination So Slow Justice Goff Threatens to Hold Night Sessions to Hurry Trial.

New York, Oct. 8.—Charles Becker, the police lieutenant who was in command of the "strong arm" squad of police gambling raiders, was placed on trial for the murder of Herman Rosenthal, the gambler who was alleged to have betrayed the "system." Out of 14 examined only one juror had been chosen when the day's session closed.

Of the other 13 talesmen, three were peremptorily challenged by the state and four by the defense, Becker himself instructing his counsel, John F. McIntyre, to make the challenges in each case. The others were disqualified by the court for bias or upon challenges for cause by counsel.

The examination proceeded so slowly that Justice Goff, in adjourning the case, threatened to hold night sessions if the jury was not picked at the next day's session.

Killed in a Feud.

Richmond, Ky., Oct. 8.—James Ferris, one of the wealthiest farmers of central Kentucky, was shot and killed on the street here and Breckenridge Maupin, another wealthy farmer, was arrested charged with having done the shooting. It is said the killing was a result of an old grudge.

Struck Oil at Cherryvale.

Cherryvale, Kan., Oct. 8.—A large oil well has just been struck within a mile of Cherryvale. Many oil men here are active in getting leases. The field promises to be as good as that at Bartlesville. Other wells will be drilled.

Murder Inquest Again Delayed.

Wellington, Kan., Oct. 8.—The coroner's inquest in the Otto McKnelly murder case at Wellington went over because of the illness of Mrs. Kinsey, a witness.

COURT IS WARNED AGAINST A TRUST

Wickersham Fears Bathtub Combine Will Fool Judges.

EXPLAINS PLAN TO EVADE RULES

Attorney General, in Brief Just Filed, Says License Agreement is Only Mask to Deceive Supreme Court and Public.

Washington, Oct. 8.—Warnings against being "bamboozled" by the "bathtub trust" figured prominently in the brief of the department of justice just filed in the supreme court of the United States for the guidance of the justices in considering the question of whether the combination shall be dissolved in accordance with a decree of the Maryland federal court.

Attorney General Wickersham and his special assistant, Edwin P. Grosvenor, informed the court that the license arrangement of the accused manufacturers was merely the latest contrivance for evading the rules prescribed by the Sherman act in the conduct of interstate commerce.

Calls Plan "Hocus Pocus."

The arrangement referred to was a plan whereby the owner of a patented dredger, used in making unpatented bathtubs, licensed the dredger to the manufacturers on conditions regulating the prices at which the tubs were to be sold and resold.

"We assert that the so-called license arrangement adopted by appellants was merely a hocus pocus, a thimble-rigging device by which they expected to trick and bamboozle the public and the courts. The form alone is new. Behind the grinning mask of the license agreement is the common, vulgar type of monopoly which many times has been condemned by this court, dangerous alike to individual liberty and the public wellbeing, as was said by the court in the tobacco case."

ROUGH TREATMENT SAVED A LIFE

An Electrician, Pronounced Dead From Shock, Revived by Beating and Running.

San Francisco, Oct. 8.—An hour's heroic treatment brought back signs of life into the body of Bert Edgar, an electrician, after he had been pronounced dead from a shock of 2,200 volts and a fractured skull, received when the electricity threw him from a platform 15 feet above a cement floor. He may recover, it was said at the emergency hohpital.

Two ambulance attendants, ran Edgar's apparently lifeless body up and down the street, with the feet touching the pavement while one struck him about the chest and shoulders, and both shouted continuously into his ears.

After an hour of nearly continuous treatment of this sort, interruptions being caused by well meaning passers-by who thought Edgar was being beaten up, Edgar showed signs of life and was rushed to the hospital.

ROUGH SESSION IN PARLIAMENT

Home Rule, Church in Wales and Election Reforms Will Develop Big Fights.

London, Oct. 8—Parliament has convened for what promises to be the most tempestuous session in years. Three matters of vital importance are to be disposed of—Irish home rule, disestablishment of the Church of England in Wales and election reforms.

The Liberal administration supports all these measures. The Conservatives will fight them, tooth and nail. Already they have 55 pages of amendments to the home rule on hand simply to delay it.

To Abolish "Prep" Schools.

Topeka, Oct. 8.—Kansas colleges are preparing a standard requirement program that practically will abolish most of the preparatory schools in the state. Nearly every Kansas college was represented in a meeting with E. T. Fairchild, state superintendent of public instruction, when the courses of study of the high schools of the state and the entrance requirements of the different colleges were discussed. A committee was appointed to draft a standard regulation for entrance to all the colleges of Kansas.

Restaurant Fire Fatal.

New York, Oct. 8.—Trapped on the third floor of Bennett's restaurant building on Park Row by flames which started from a defective flue, Nellie Gilman and Adelaide Preston, two young waitresses, were killed and two others taken out in a severe condition from smoke inhalation. A fifth woman who grasped a rope which a fireman let down from the roof, slid to the ground in safety, although her hands were lacerated. The fire did about $10,000 damage.

Give Butter to Poor.

Chicago, Oct. 8.—One ton of butter churned from pure cream will be produced at the National Dairy exposition to be held here October 24 to November 2. The entire lot will be given to the worthy poor of the city.

POSTAL THIEF GOT $200,000

REGISTERED MAIL PACKAGE IS MYSTERIOUSLY MISSING.

Shipped From Havana to New York Bank—Secret Service Men Search Two Countries.

New York, Oct. 8.—Postoffice inspectors of two countries, secret service men and a detective agency are investigating the mysterious disappearance of a registered mail package containing $200,000 consigned from Havana to the National Park bank of this city.

The loss was discovered when the registered mail pouch from Havana was opened in the New York postoffice. When and where the package disappeared, whether in Havana, aboard the steamship or train which brought it or thereafter no one has been able to discover.

It appears that whoever did get the money will not receive much benefit from it. One-half at least was in $10,000 bills and the balance in bills of 1,000 and $500 denominations. Their numbers have been telegraphed to every financial center in the world. If they appear the possessor will be arrested.

The bag itself went under lock and key the moment it was abord the ship. It was turned over in the regular course to the postal authorities when it reached this city, and when it was opened it was found that the bag was a package short and that was the package containing the $200,000.

The postoffice authorities are working zealously on the case in the two republics.

KANSAS GIRLS LEARN TO COOK

Domestic Science Course of Agricultural College is Rapidly Expanding.

Manhattan, Kan., Oct. 8.—Three thousand Kansas girls who cannot go to schools where housekeeping is taught are learning to cook and sew in home economics clubs organized by the Kansas agricultural college. Sometimes a vacant room in a school building is used as a meeting place, at other times the club members meet in the leader's kitchen. When it is impossible to have a general meeting place each member tries the recipe or works out the sewing lesson in her home. Her success or failure then is reported to the leader who in turn reports to the person in charge of the work at the agricultural college.

These clubs have been organized and directed by Miss Frances Brown of the extension department. The work now has become so large that a trained worker will devote her entire time to it.

ALL TICKETS ARE INCOMPLETE

Neither of Three Leading Parties Nominated Candidates in All Districts of Missouri.

Jefferson City, Oct. 8.—Now that the date for filing nominations with the secretary of state, save in case of death or resignation, has passed, an examination of the records show that the Republicans have not made any nominations in six state senatorial districts, the first, third, ninth, thirteenth, seventeenth and twenty-first. They have also no candidate for judge of the Kansas City court of appeals.

The Democrats have a full state ticket on file, with the exception of the nineteenth and twenty-fifth state senatorial districts. Both these districts are overwhelmingly Republican.

The Progressives have not nominated candidates for congress in nine of the 16 districts—first, second, third, sixth seventh, eight, tenth, fifteenth and sixteenth.

DIVORCE RECORD RIVALS RENO

TOPEKA WELFARE WORKERS ALARMED AT FIGURES.

Statistics Show One Separation for Every Two Marriages—Will Ask Legislature to Act.

Topeka, Oct. 7.—Topeka welfare workers have discovered that there has been one divorce for every two marriages in the last three months. Statistics for the last year show that the divorce evil in Topeka is running about one divorce to each five marriages while throughout the state and the country the ratio is one divorce to each eight or nine marriages.

In July, August and September, 88 divorces have been asked for in the Topeka courts and in the same period there were 199 marriages. In July there were 39 divorces and 51 marriages. August had 15 divorces and 64 marriages, while September had 34 divorces to 84 marriages.

Those who have been gathering the statistics have found that in April, May and June the marriages run from six to seven to one divorce while in the other months of the year, and especially in the hottest weather, the divorces are one to each two or three weddings.

State and local officials have been asked to make an investigation of the causes for the divorces in conjunction with the local societies so that the ratio may be determined for the entire state and some action proposed to the next legislature regarding the fitness for marriage and the legal ends of divorce.

SCHOOL TEACHER A CRIMINAL?

Taxicab Murder Results In Second Arrest of Superintendant at Bingham, Utah.

Salt Lake City, Oct. 7.—A taxicab, a mysterious woman and revolver shots at midnight, all figured in the murder of Thomas E. White, a public chauffeur, whose body was found in his car on a residence street at dawn.

Caleb A. Inlow, superintendent of schools at Upper Bingham, Utah, has been arrested. Inlow had been arrested five days before on the charge of robbing a house of a valuable collection of minerals. His arrest was due to information given to the police by White, who said he had taken a passenger to and from the house where the robbery occurred.

The schoolmaster gave bond and was preparing for trial at which White was expected to be the principal witness for the state.

A GOOD ATTENDANCE.

First Sermon in Series of Meetings at First Baptist Church is Heard by Good Audience.

Rev. Miles Smith of the Tarkio Baptist church was received by a good audience Monday night at the First Baptist church of this city, when he preached the first of the series he will present in the protracted effort.

His sermon was based on Ephesians 2:1-10, emphasizing the gift of God's grace to all who believe in him. The only limit to God's loving favor is what we ourselves place upon it. If we seek, we shall find; if we knock, He will open to us and give abundantly, far more than we are able to think to ask for ourselves.

Rev. Smith is a pleasant speaker. He believes in a religion that brings happiness and peace and blesses the lives of all who come in contact with the one who professes the name of Jesus. He said that he expected to have a good meeting in Maryville, because he had asked for God's blessing on his effort here and he knew the answer would come.

His subject tonight will be "The Field of the Heart."

All are cordially invited to come to these meetings.

Township Assessor Ed. F. Hamlin has just completed his books and turned the tax lists for Polk township over to the collector. ST. JOE DON'T LIKE IT

NEW WABASH-GREAT WESTERN TRAIN FAVORS OMAHA.

NO BENEFIT TO ST. JOSEPH

Shoppers Bound for St. Joseph Would Have to Board the Train After Midnight.

That St. Joseph is going to have a kick coming on the proposed new Wabash-Great Western train is evident from an article in Tuesday's Gazette. St. Joseph seems to see in the proposition a scheme to rob her of a lot of trade her merchants think belongs to them and turn it to Omaha. It is all in the time schedule. Both cities are in favor of the train and the service but each city will evidently want the running time so arranged as to favor it in a commercial way. The Gazette article is as follows:

The rumored action of the Chicago Great Western and the Wabash in inaugurating joint through service between Omaha and St. Joseph and Kansas City, by way of Conception Junction, has come to the attention of the Commerce club, through the efforts of the Commercial club of Shenandoah, Ia. From communications received from Shenandoah it would seem that the towns along the Wabash between Omaha and Maryville are trying to get a train service that will enable them to do their shopping in Omaha and remain over for the theaters, leaving Omaha about 11 o'clock p. m. Such a schedule would put a through train into St. Joseph about 3:56 o'clock a. m., but little ahead of the present running schedule of the two fastest trains on the Wabash and the Great Western between Omaha and Conception Junction. The Wabash time between these two points is two hours and forty-two minutes. The time from Conception Junction and St. Joseph on the Great Western is one hour and fourteen minutes. Such a schedule would be of no practical benefit to St Joseph shoppers, as they would have to board the train after midnight and up to 2 o'clock a. m., in order to avail themselves of the train that Shenandoah and other Wabash towns are attempting to secure.

The return schedule, or the train from St. Joseph to Omaha, is not suggested by Shenandoah and the Iowa-Wabash towns. The only benefit that could accrue to St. Joseph from such a schedule as Shenandoah and its neighboring towns suggest is in through train service from Omaha to St. Joseph and vice versa.

That the joint traffic arrangement and through train over the Great Western-Wabash tracks is coming soon seems almost certain. C. R. Berry, assistant to the vice president of the Great Western, said yesterday that the deal is under consideration. Of course Shenandoah and the small Iowa towns that hope to be affected by the proposed new train service were not instrumental in initiating the move, and they are naturally trying to get the best deal for themselves and Omaha out of the projected change. The Commerce club will not back Shenandoah and the other towns in demanding or devising such a schedule as Shenandoah hopes to secure, and which means everything for Omaha in a shopping service, and nothing for St. Joseph but a through service.

The Great Western-Wabash line from Kansas City to St. Joseph and Omaha is only sixteen miles longer than the Burlington route from Kansas City to St. Joseph and Omaha.

If the Commerce club gets back of the deal it will be to secure a schedule that will give St. Joseph the benefit of a passenger schedule that would make Shenandoah, Blanchard, Coin, Summit, Imogene and other Iowa towns on the Wabash St. Joseph shopping towns, rather than more easily reached from Omaha than now.

Their Wedding Anniversary.

Last Sunday was a time of general merriment all day long at the beautiful home of Mr. and Mrs. J. A. Sparks of near Parnell. They had forgotten that the day was their twentieth wedding anniversary until Mrs. Sparks was preparing dinner, when she noticed a long procession of buggies and automobiles coming toward their home along the Saints Highway. She asked her husband if he knew what was going on that would bring out so many at once along that way. They soon recognized old friends and relatives in the procession, and when it stopped at their home they remembered it was their twentieth wedding anniversary, and bid the one hundred and two guests a royal welcome. A sumptuous dinner was spread at once, the guests having brought a veritable feast with them, and after dinner the young people of the company gave a

WAITING ON STREET

DETAILS OF CITY'S PROPOSITION SUBMITTED TO PRESIDENT.

SETTLEMENT PROBABLE

It is Thought Water Company Will Recognize Fact That City Has Made Its Final Offer.

Up to noon today the water question had apparently not been settled, although a settlement is supposed to be near. The formal proposition made by the city was sent down to the company's attorneys at Kansas City Saturday night and some definite reply was expected this morning, but a slight misunderstanding seems to have arisen over the Robinson and Bellows extensions.

In their figuring heretofore the company claims to have figured exclusive of these extensions. They were put in at private expense and the company has been taking them over by degrees, paying for them from the water receipts. The city council, in its proposition, assumed that they were to get everything but the coal, and the members were in no mood to change their offer.

Manager Roseberry asked that in making up the formal proposition it be expressly stated that it covered these extensions, so that there would be no room for a wrangle hereafter, and this was done. He received a letter this morning from the company's attorneys at Kansas City, Harkless, Cryster & Histed, and they suggest that, owing to this property being included, they have forwarded the details of the offer to Mr. Street, and that the final answer may be delayed somewhat.

It is felt, however, that as the matter is final so far as the city is concerned, it is only a matter of hours before an acceptance is received.

Noted Republican to Support Democratic Ticket.

New York, Oct. —Dr. J. N. Hurty, health officer in Indiana and one of Harvey W. Wiley's most ardent supporters in the public health campaign, has come out for Governor Woodrow Wilson, according to information received at the Wilson national Progressive Republican league. Dr. Hurty is a life-long Republican. He will probably take the stump for Governor Wilson in the present campaign, basing his appeal to the voters on the ground that Governor Wilson has shown himself to be in hearty sympathy with Dr. Wiley's pure food campaign.

Another addition to Governor Wilson's ranks is General John B. Peck of Saunderstown, R. I., father of Miss Annie Peck, the explorer and mountain climber. In a letter to Rudolph Spreckles, president of the Wilson National Progressive Republican League, General Peck said: "Please place my name upon the membership roll of your league. I was with the Republican Wide Awakes in 1860 and have supported and voted for every Republican candidate for the presidency since that date." General Peck served as acting third assistant engineer, U. S. A., for two years during the war.

There was no tariff on that wet blanket which Hadley threw over the Republican campaign opening.

Governor Hadley is against the Democratic state ticket, but he has never been able to give a very good reason why.

The Underwood cotton bill so reduced the cotton schedule as to save the consumer of cotton goods $88,000,000.00. But Taft vetoed the bill, and John C. McKinley endorses Taft.

Don't fail to come to Maryville next Saturday and hear the big men discuss the true Democratic faith and analyze present economic conditions. Come and hear Judge Wallace discuss the single tax amendment. You are all interested in that.

Dr. Harvey W. Wiley, who has done more for humanity in his crusade for pure food than any one man in a generation, is an enthusiastic supporter of Governor Woodrow Wilson, because pure food and pure politics work well together.

Democrats should wake up along with the balance. There have been almost as many elections lost through over-confidence as from lack of strength. The only thing that could possibly lose county, state or nation to the Democrats this year would be over-confidence and carelessness.

One of Missouri's ablest farmers and land owners says this of the seventh amendment: "Napoleon with his mighty army, Creosus with all his money, Monte Cristo with all his uncounted gold—none of these had the unlimited power such as these three tax commissioners under single tax would have."

Have you given anything yet toward the campaign for the rule of the people? The developments in the investigation of campaign contributions now going on at Washington show clearly that "big business" has owned the government because it has been financing the campaigns of Republican candidates. The people now have a chance to come into their own. Do you want it bad enough to help the campaign in your own interest? If so send The Democrat-Forum a dollar or more and don't delay for the time is getting short, and in four weeks a new president will be elected.

FATAL.

It is also clear that Governor Hadley gave too much attention to the task of "weighing" the situation, says the St. Louis Times. During his long, amazing silence, relative to his position toward the presidential candidate of the Republican party and the candidate of the Bull Moosers, it is found that he was "weighing" the case.

If the governor had dared to do what he thought the right thing to do, instead of taking the larger part of the summer to determine which would be the more popular thing to do, he would have emerged from the situation in much better order.

The right kind of people respect honest convictions. An honest stand would have won friends for the governor from among the ranks of Democrats and Republicans alike. But the trimmer who frankly employs nearly three months in which to do his trimming is loved by nobody.

It is the politician who can trim spontaneously, so to speak, who holds his own among other politicians. A man who spars for position three months wins neither confidence nor respect.—Joplin Globe.

Prevention of Typhoid Fever.

The source of typhoid germs is the typhoid patient. These germs are carried from the patient to the outside world in excreta, in the bedding, and by attendants. If the excreta, bedding, clothing, towels and other clothes are disinfected before leaving the patient's room, the chances for spreading typhoid fever are greatly reduced. To disinfect the excreta, make the entire mass of excreta a 2 per cent solution of carbolic acid by adding strong crude carbolic acid. The clothing, bedding and other materials should be placed in a 2 per cent solution of carbolic acid. All material to be disinfected in carbolic acid should remain in the solution from two to four hours. After which they may be handled as desired. Attendants and visitors should disinfect their hands before leaving the patient's room.

The nourishment for the patient should be kept separate from the family supply. A separate refrigerator should be used, when possible.

KANSAS RAILROAD VISION VANISHED

Winnipeg, Salina & Gulf Promoter Arrested for Fraud.

TOOK $500,000 FROM FARMERS

Postal Officials Learned of Vast Amounts Invested by Bankers and Merchants Also in Three States.

Kansas City, Kan., Oct. 8.—With the dramatic arrest in the federal court here of H. Leone Miller, president of the Winnipeg, Salina & Gulf railway the postoffice officials believe they have brought to a close a Western case of Get-Rich-Quick Wallingford, who operated—apparently immune to the much heralded "blue sky" law of Kansas.

The railroad that Miller has been promoting for the past two years, it is charged, exists only on paper and is a mere scheme to enrich its president and promoter, that its only property was the handsomely furnished "general offices" in Salina, and its financial backers and board of directors were mythical.

Covered Several States.

Postal officials charge that the bankers, merchants and well to do farmers in Kansas, Nebraska and Oklahoma who invested approximately $500,000 in the project would never have received the stock that they were promised and that this money went into the pockets of Mr. Miller.

Miller might have continued to operate indefinitely if he had not visited the little city of Turon, Kan. Miller went to Turon and agreed to make it a division point if $2,500 was raised by the people there.

This was done. Miller promised a 10-stall roundhouse, ice plant and like commercial institutions if the citizens would raise additional funds. This they did not agree to do. They demanded some tangible work by the railroad. That was the cause of Mr. Miller's downfall. It brought a showdown.

Met His Waterloo.

Miller to meet this engaged the Brindley Construction company of New York to do the necessary work of surveying, telling them as he had told the Commercial club of Turon, Salina and a dozen other towns, that he had deposited $29,997,000 in banks in Paris, France. When the survey was made from Turon to Salina the Brindley company was to receive $69,000. The survey was made, but the construction company could not get the money due it. in July the Brindley company applied to the United States courts for the appointment of a receiver for the Winnipeg, Salina & Gulf railroad.

J. A. Kimball of Salina was appointed receiver. He soon reported that aside from the office fixtures he could find no property. The company was chartered in Kansas, but J. N. Dolley, bank examiner, had refused to permit it to sell stock there after the passage of the "blue sky" law. The receiver has just caused Miller to be cited before Judge John C. Pollock for contempt.

BOWLS BAD, LIVER TORPID? CASCARETS

If Constipated, Bilious, Headachy, Stomach Sour, Get a 10-Cent Box of Cascarets—Take One Tonight.

You men and women who can't get to feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular and head clear for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

Mrs. Howard Strong and her sister, Miss Lora Livasy, went to Pickering Tuesday to spend a few days with their mother, Mrs. Mary Livasy.

EUROPEAN POWERS WILL INTERVENE

Europe Accepts French Proposals and All Are Now in Accord.

TROOPS SPOILING FOR A FIGHT

Proposed Ultimatum to Turkey Has Been Modified—Some Fear Excitement Has Advanced Too Far to Avoid Conflict.

Paris, Oct. 8.—The European powers have decided to intervene at the Balkan capitals and Constantinople as soon as it is possible to make arrangements to that effect. Great Britain has signified its acceptance of the French proposals so that all the powers now are in accord.

Premier Poincare immediately communicated Great Britain's acceptance to Sergius Sazonoff, the Russian foreign minister, who then telegraphed to the Russian diplomats accredited to the Balkan states telling them to join their Austrian colleagues in a mutual presentation to the Balkan governments of the note agreed upon. This is to be done at the earliest possible moment.

Situation Tense.

The tension in the situation remains and it is realized that the crisis will persist as long as a million troops spoiling for a fight, continue under arms.

The combined ultimatum demanding reforms, which the Balkan states were to have dispatched to Turkey, has now under the guidance of diplomacy taken the form of "a note which will be sent simultaneously to all the great powers and Turkey." The Ottoman government which protested that it would not listen to proposals touching on its internal affairs, from any source, has itself opened the door to receive the demands the powers intend to make by voluntarily granting the Christian vilayets a wholesale measure of reforms.

Official France has noted these signs of concession as hopeful. The government thinks that with some extension and an adequate guarantee that the powers themselves will take in hand their accomplishments, these reforms ought to satisfy even Bulgaria.

Plan to Sow Discord.

Constantinople, Oct. 8.—The Balkan situation has been considerably changed by Turkey's eleventh hour surprise announcement of her willingness to grant a great measure of self-government to Rumelia and Macedonia.

It is argued here that in introducing in those provinces reforms elaborated by representatives of Great Britain, France, Germany, Austria, Italy and Russia, Turkey not only desires to give the powers an argument for bringing pressure to bear in the Balkan capitals but probably has in view the circumstances that the decision is calculated to show discord among the members of the Balkan alliance.

In many quarters here the fear is expressed that the excitement created by the war preparations of both sides have advanced too far for a conflict to be avoided on the basis of any reform short of complete Macedonian autonomy.

GOT ONE JUROR ON BECKER CASE

Examination So Slow Justice Goff Threatens to Hold Night Sessions to Hurry Trial.

New York, Oct. 8.—Charles Becker, the police lieutenant who was in command of the "strong arm" squad of police gambling raiders, was placed on trial for the murder of Herman Rosenthal, the gambler who was alleged to have betrayed the "system." Out of 14 examined only one juror had been chosen when the day's session closed.

Of the other 13 talesmen, three were peremptorily challenged by the state and four by the defense. Becker himself instructing his counsel, John F. McIntyre, to make the challenges in each case. The others were disqualified by the court for bias or upon challenges for cause by counsel.

The examination proceeded so slowly that Justice Goff, in adjourning the case, threatened to hold night sessions if the jury was not picked at the next day's session.

Killed in a Feud.

Richmond, Ky., Oct. 8.—James Ferris, one of the wealthiest farmers of central Kentucky, was shot and killed on the street here and Breckenridge Maupin, another wealthy farmer, was arrested charged with having done the shooting. It is said the killing was a result of an old grudge.

Struck Oil at Cherryvale.

COURT IS WARNED AGAINST A TRUST

Wickersham Fears Bathtub Combine Will Fool Judges.

EXPLAINS PLAN TO EVADE RULES

Attorney General, in Brief Just Filed, Says License Agreement is Only Mask to Deceive Supreme Court and Public.

Washington, Oct. 8.—Warnings against being "banboozled" by the "bathtub trust" figured prominently in the brief of the department of justice just filed in the supreme court of the United States for the guidance of the justices in considering the question of whether the combination shall be dissolved in accordance with a decree of the Maryland federal court.

Attorney General Wickersham and his special assistant, Edwin P. Grosvenor, informed the court that the license arrangement of the accused manufacturers was merely the latest contrivance for evading the rules prescribed by the Sherman act in the conduct of interstate commerce.

Calls Plan "Hocus Pocus."

The arrangement referred to was a plan whereby the owner of a patented dredger, used in making unpatented bathtubs, licensed the dredger to the manufacturers on conditions regulating the prices at which the tubs were to be sold and resold.

"We assert that the so-called license arrangement adopted by appellants was merely a hocus pocus, a thimble-rigging device by which they expected to trick and bamboozle the public and the courts. The form alone is new. Behind the grinning mask of the license agreement is the common, vulgar type of monopoly which many times has been condemned by this court, dangerous alike to individual liberty and the public wellbeing, as was said by the court in the tobacco case."

ROUGH TREATMENT SAVED A LIFE

An Electrician, Pronounced Dead From Shock, Revived by Beating and Running.

San Francisco, Oct. 8.—An hour's heroic treatment brought back signs of life into the body of Bert Edgar, an electrician, after he had been pronounced dead from a shock of 2,200 volts and a fractured skull, received when the electricity threw him from a platform 15 feet above a cement floor. He may recover, it was said at the emergency hohpital.

Two ambulance attendants, ran Edgar's apparently lifeless body up and down the street, with the feet touching the pavement while one struck him about the chest and shoulders, and both shouted continuously into his ears.

After an hour of nearly continuous treatment of this sort, interruptions being caused by well meaning passers-by who thought Edgar was being beaten up, Edgar showed signs of life and was rushed to the hospital.

ROUGH SESSION IN PARLIAMENT

Home Rule, Church in Wales and Election Reforms Will Develop Big Fights.

London, Oct. 8—Parliament has convened for what promises to be the most tempestuous session in years. Three matters of vital importance are to be disposed of—Irish home rule, disestablishment of the Church of England in Wales and election reforms.

The Liberal administration supports all these measures. The Conservatives will fight them, tooth and nail. Already they have 55 pages of amendments to the home rule on hand simply to delay it.

To Abolish "Prep" Schools.

Topeka, Oct. 8.—Kansas colleges are preparing a standard requirement program that practically will abolish most of the preparatory schools in the state. Nearly every Kansas college was represented in a meeting with E. T. Fairchild, state superintendent of public instruction, when the courses of study of the high schools of the state and the entrance requirements of the different colleges were discussed. A committee was appointed to draft a standard regulation for entrance to all the colleges of Kansas.

Restaurant Fire Fatal.

New York, Oct. 8.—Trapped on the third floor of Bennett's restaurant building on Park Row by flames which started from a defective flue, Nellie Gilman and Adelaide Preston, two young waitresses, were killed and two others taken out in a severe condition from smoke inhalation. A fifth woman who grasped a rope which a fireman let down from the roof, slid to the ground in safety, although her hands were lacerated. The fire did about $10,000 damage.

Give Butter to Poor.

WE wish to call attention to a department in our store that most people do not know about—that is the recovering of umbrellas. You do not need to throw away a good frame when the cover is worn out. Just bring the frame to us and we will recover it WHILE YOU WAIT. We believe this is a feature in the Umbrella Business that you will not find elsewhere in town. The price of covers range from $1.00 up to any price you want to pay.

Shaler Umbrellas

Are the best Umbrellas made. They are carried in Maryville exclusively by us. We just received a big shipment of these goods and are just in time with a fine, big line for this rainy weather. These Umbrellas are especially noted for the excellent grade of cover used and for the workmanship that goes into them to make the Umbrella durable and strong. All Shaler handles are properly swedged. This important feature which is often omitted, not only adds materially to the appearance of handles, but strengthens them and absolutely prevents checking and the resultant loosening from the umbrella rod.

We highly recommend the SHALER Umbrella to those wanting THE BEST.

Rainy Weather Time is Rainc at Time

The woman or miss who needs a raincoat should see what we have to offer. Do not wait a week or two weeks to have one ordered, but select one from the big stock we have waiting for you. In this way you can see just what you are buying and be thoroughly satisfied. We sell the Kenyon raincoats—recommend them and believe they are the best raincoats made. We just received an express shipment from New York containing the newest styles and materials.

Some of the garments we feature are: Ladies' English slip-ons—Derby coats, made from single texture material, with high military collar, storm tabs on collar and sleeves, and side vertical pockets. A strictly waterproof coat, price $5.50

Handsome English Tweeds in a light grey shade with plaid lining for those wanting something a little better. This is a beautiful double texture garment with raglan shoulder, fancy ball buttons and has the new service collar which allows it to be worn open at neck with lapel lying flat, or closed at neck with hook and eye. Price.....$15.00

Ladies' Gabardine Coats

This coat is number 3264 and is made from tan colored Gabardine. Comes in straight box back, silk lined yoke, military collar, adjustable sleeves at wrist. A very high grade coat. Price $15.00

"Our Personal Guarantee to all Skin Sufferers"

J. C. Ferritor, Druggist

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the eczema remedy and that we stand back of it with the manufacturer's iron clad guarantee, backed by ourselves you can depend upon it that we give our advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell, all the well known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or tetter, we want you to try a full size bottle of D. D. D. Prescription. And, if it does not do the work, this bottle will cost you nothing. You alone to judge.

Again and again we have seen how a few drops of this simple wash applied to the skin, takes away the itch, instantly. And the cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you applied this D. D. D.

We have **made fast friends of more than one family** by recommending this remedy to a skin sufferer here and there and we want you to try it now on our positive no-pay guarantee.

POSTAL THIEF GOT $200,000

REGISTERED MAIL PACKAGE IS MYSTERIOUSLY MISSING.

Shipped From Havana to New York Bank—Secret Service Men Search Two Countries.

New York, Oct. 8.—Postoffice inspectors of two countries, secret service men and a detective agency are investigating the mysterious disappearance of a registered mail package containing $200,000 consigned from Havana to the National Park bank of this city.

The loss was discovered when the registered mail pouch from Havana was opened in the New York postoffice. When and where the package disappeared, whether in Havana, aboard the steamship or train which brought it or thereafter no one has been able to discover.

It appears that whoever did get the money will not receive much benefit from it. One-half at least was in $10,000 bills and the balance in bills of 1,000 and $500 denominations. Their numbers have been telegraphed to every financial center in the world. If they appear the possessor will be arrested.

The bag itself went under lock and key the moment it was abord the ship. It was turned over in the regular course to the postal authorities when it reached this city, and when it was opened it was found that the bag was a package short and that was the package containing the $200,000.

The postoffice authorities are working zealously on the case in the two republics.

KANSAS GIRLS LEARN TO COOK

Domestic Science Course of Agricultural College is Rapidly Expanding.

Manhattan, Kan., Oct. 8.—Three thousand Kansas girls who cannot go to schools where housekeeping is taught are learning to cook and sew in home economics clubs organized by the Kansas agricultural college. Sometimes a vacant room in a school building is used as a meeting place, at other times the club members meet in the leader's kitchen. When it is impossible to have a general meeting place each member tries the recipe or works out the sewing lesson in her home. Her success or failure then is reported to the leader who in turn reports to the person in charge of the work at the agricultural college.

These clubs have been organized and directed by Miss Frances Brown of the extension department. The work now has become so large that a trained worker will devote her entire time to it.

ALL TICKETS ARE INCOMPLETE

Neither of Three Leading Parties Nominated Candidates in All Districts of Missouri.

Jefferson City, Oct. 8.—Now that the date for filing nominations with the secretary of state, save in case of death or resignation, has passed, an examination of the records show that the Republicans have not made any nominations in six state senatorial districts, the first, third, ninth, thirteenth, seventeenth and twenty-first. They have also no candidate for judge of the Kansas City court of appeals.

The Democrats have a full state ticket on file, with the exception of the nineteenth and twenty-fifth state senatorial districts. Both these districts are overwhelmingly Republican.

The Progressives have not nominated candidates for congress in nine of the 16 districts—first, second, third, sixth seventh, eight, tenth, fifteenth and sixteenth.

DIVORCE RECORD RIVALS RENO

TOPEKA WELFARE WORKERS ALARMED AT FIGURES.

Statistics Show One Separation for Every Two Marriages—Will Ask Legislature to Act.

Topeka, Oct. 7.—Topeka welfare workers have discovered that there has been one divorce for every two marriages in the last three months. Statistics for the last year show that the divorce evil in Topeka is running about one divorce to each five marriages while throughout the state and the country the ratio is one divorce to each eight or nine marriages.

In July, August and September, 88 divorces have been asked for in the Topeka courts and in the same period there were 199 marriages. In July there were 39 divorces and 51 marriages. August had 15 divorces and 64 marriages, while September had 34 divorces to 84 marriages.

Those who have been gathering the statistics have found that in April, May and June the marriages run from six to seven to one divorce while in the other months of the year, and especially in the hottest weather, the divorces are one to each two or three weddings.

State and local officials have been asked to make an investigation of the causes for the divorces in conjunction with the local societies so that the ratio may be determined for the entire state and some action proposed to the next legislature regarding the fitness for marriage and the legal ends of divorce.

SCHOOL TEACHER A CRIMINAL?

Taxicab Murder Results in Second Arrest of Superintendant at Bingham, Utah.

Salt Lake City, Oct. 7.—A taxicab, a mysterious woman and revolver shots at midnight, all figured in the murder of Thomas E. White, a public chauffeur, whose body was found in his car on a residence street at dawn.

Caleb A. Inlow, superintendent of schools at Upper Bingham, Utah, has been arrested. Inlow had been arrested five days before on the charge of robbing a house of a valuable collection of minerals. His arrest was due to information given to the police by White, who said he had taken a passenger to and from the house where the robbery occurred.

The schoolmaster gave bond and was preparing for trial at which White was expected to be the principal witness for the state.

HIS TROUBLE NOT OF HEART

Real Facts In Regard To F. R. Huffman's Illness. Relief Obtained By Curing His Stomach Ailments.

Waynesville, N. C.—Mr. F. R. Huffman, of this city, says: "I suffered dreadfully with what I thought was heart trouble, and tried various medicines in vain.

After other remedies had failed, Thedford's Black-Draught restored me to health. I would not feel safe without Black-Draught in the house. I consider it worth its weight in gold.

It cured my indigestion, and by this means I was restored to health. I can not express my gratitude for its benefits."

Good health depends on the condition of your digestion. Poor digestion and good health do not go together.

Thedford's Black-Draught will thoroughly cleanse and set in order your digestive system.

It has done this for others, during the past 70 years, and is today the most popular vegetable liver remedy on the market. Try it.
